

Styria Tales

Maribor, Slovenia

Pohorje – "Razvavi"

Return to the past, conjured at native country Černe - explore the preparation of food the way it has been long ago forgotten. Take a look at the fields, cultivated with machines which aren't used in the world anymore. A restaurant where they started playing dramas, a restaurant where they were the first in the world to perform the most revolutionary comedy in the world literature, Ta veseli dan ali Matiček se ženi - Figarova svatba (The Marriage of Figaro).

There was a girl who didn't like visiting the mass; this is why she asked God to plunge the church into the Earth. When the girl was entering the church, the church plunged into the earth. They call this today the Black Puddle. The legend says that every four years the church rises so that you can see the bell tower. We will bring you to Poštela, prehistoric building site, where the Black Puddle is. Maybe the church will rise this year.

Program

We begin at 09:00 a.m. in the centre of Maribor, at the Tourist Information Centre (TIC). After one hour of sightseeing, we will go to Lent, visit the Old Wine House. We will enjoy the degustation of top wines with snacks. After the degustation we will drive to the eco farm, The House of Herbs, where they will explain to us, how herbs can help. The sweet part of the trip is the visit of the Beekeeping Cesar. This is followed by the degustation of different honey tastes, mead and even honey champagne. Only a few kilometers away are people at the Restaurant Černe expecting us with authentic, homemade lunch. In the wintertime they like to offer crops and products typical of this time of the year – sauerkraut and fresh pork and sausage. In the summertime they surprise us with homemade culinary delights. After lunch we will visit Poštela and explore the prehistoric legend. Our last stop is the Cheese Dairy Čus. The expected return to the centre of Maribor is at 20.00.

Offerer

In the year 2005 opened its doors the Tourist Farm Černe with placing. Because there was a big request they renamed it in the year 2011 to restaurant with placing. On the farm which is now from the restaurant approx. 300 m distant they still breed cattle, pigs and fowls. They also have seasonal vegetables and other products.
